Blue Cross of California/Anthem Blue Cross Insured:

Blue Cross has determined that the routine service of an anesthesiologist for average risk patients undergoing standard upper and lower gastrointestinal endoscopic procedures is not medically necessary, and therefore will not be covered by Blue Cross. Blue Cross deems that the gastroenterology procedure for which you are being admitted can be performed without the assistance of an anesthesiologist. Blue Cross does cover the fee for intravenous sedatives and opiates administered by the gastroenterologist, without an anesthesiologist in attendance. This option excludes the use of an anesthesiologist.

Patients who desire the services of an anesthesiologist, must pay prior to the procedure. Our anesthesiologists provide their services for the administration of anesthesia at a discounted rate. **This discounted rate is for patients paying by cash, check, or eCheck. Checks should be written out to "CLRAMG". For patients paying by eCheck, please call (805)578-8300 or visit WWW.CLRAMG.COM.**
